

MOORFIELD
SCHOOL

DISABILITY EQUALITY ACCESSIBILITY PLAN

This applies to the whole School (including Early Years Foundation Stage) and is published to parents, pupils and staff

DISABILITY EQUALITY ACCESSIBILITY Plan - 2026 to 2027

The Act defines a disabled person as someone who has 'a physical or mental impairment which has a substantial long term and adverse effect on his or her ability to carry out normal everyday activities.'

This ability to carry out normal everyday activities relates to one or more of the following areas: mobility, manual dexterity, physical co-ordination, continence, ability to lift, carry or otherwise move everyday objects, speech, hearing or eyesight, memory or ability to concentrate, learn or understand and the perception of physical danger. The DDA has extended the definition of disability to include people with HIV, multiple sclerosis and cancer from the point of diagnosis. Individuals with a mental illness no longer have to prove that it is clinically well-recognised; although the person must still demonstrate a substantial and long-term adverse effect on their ability to carry out normal day to day activities.

At Moorfield School ("School") we are committed to creating quality of education for disabled pupils with a medical condition and opportunity for such pupils, staff and visitors to participate fully in the school community. Moorfield is a school which celebrates individuality and one of our aims is to enable each child to make progress from his or her personal level of ability. This assumes that children have different starting points but a culture of inclusion and respect for each other is part of the Moorfield ethos. Our admission policy is non-selective on entry but the school must feel sure that the child would benefit from the education offered and develop their potential whilst at the school.

Moorfield School's accessibility plan (2022 to 2025) is to be implemented over the period in order to fulfil its duties under Schedule 10 of the Equality Act 2010.

It covers:

- a) **INCLUSION** by increasing the extent to which pupils with a disability or medical condition (including those with SEND) can participate in the school's curriculum
- b) **ACCESSIBILITY** by improving the physical environment of the school for the purpose of increasing the extent to which disabled pupils and pupils with a medical condition are able to take advantage of the education, facilities and benefits offered by the school; and
- c) **COMMUNICATION** by improving the delivery of information to disabled pupils and pupils with medical condition which is already accessible to pupils who are not disabled.

Moorfield School's building is difficult for disabled access. It is a Victorian building with four staircases, classrooms over four floors and no lifts. The school grounds and sports pitches are accessed via steps. Reasonable improvements to access are included on the accessibility plan. Items have been added for the year 2026/7 year as was in post from Feb 2026, with new Governors, and are currently in a process of further site review with BGS Estates and a new three year DEAP will be in place from Sept 2026.

The Accessibility Plan must be realised in ways which are determined after taking account of the pupils' disabilities taking regard of any preferences expressed by them or their parents. The Governors show regard to implementing the accessibility plan by allocating adequate resources as necessary and keeping the plan under annual review. Consideration will be given to specific individual cases and provision may fall under other policy areas. Reference may need to be made to Department of Education (DfE) documents: Mental Health and Behaviour in School (2018) and Counselling in School: a blueprint for the future (March 2016).

Policies relating to or affected by the Disability Accessibility Plan are:

Equal Opportunities Policy
Special Educational Needs Policy
Anti-bullying Policy
School Development Plan
Admissions policy

MOORFIELD SCHOOL

DIABILITY EQUALITY ACCESSIBILITY PLAN

2026 to 2027

Target	Task	Achieved/ Specific Comments	Resources	Responsibility	Monitoring
Determining Assistance Required To enable School to address specific disabilities either prior to entry or whilst at School	Registration pack includes request for medical information so School informed of any diagnosed disability/medical condition for which special provision needs to be made. To obtain any individual plans which address any specific requirements. Involve pupil, parents, employees, nurses, outside agencies, as appropriate. Children registering with School are invited to 'taster days' so that any specific needs can be assessed to determine if they can be catered for.	Early identification of individual needs. Reasonable adjustments made for each pupil. Grab handles and pull cords installed as required by Site Manager. As soon as parent registers their child.	Use of current staff so within scope of job and school budget.	Head, class teacher, SEND co-ordinator, BGS Estates Manager, Site Manager	Head, Class teacher, SEND co-ordinator
